CAMPBELL, THE ORCHARD CITY
OF THE
FAMOUS SANTA CLARA VALLEY

Campbell Press

FOR THE BEST INTERESTS
OF
CAMPBELL AND COMMUNITY

VOL 32. NO. 3

CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA.

FRIDAY, JULY 16, 1926.

The apple growers' union packing house at Forestville opened on July 1.

Several thousand acres of Tulare county citrus orchards will receive a generous treatment of fumigation for control of citrus pests.

Orchardists in Tehama county are getting the best price for dried peaches since 1917, and in a short time all the new crop will have been contracted for.

West side sweet potato growers in the vicinity of Murray, Kings county, have about 100 acres of the tubers under cultivation and expect an early and excellent crop.

The Placer county fruit shipping rush, which is expected to last during the next six weeks without any abatement, is underway at Auburn with the shipping of Burbank plums in large quantities.

Farm lands in Merced county are infested by great numbers of ground squirrels despite extensive distribution of poisoning and Horticultural Commissioner E. E. Welty is planning an extermination program along wide lines to rid the county of the rodents.

The Coachella valley farm center has the largest membership of any center in the Riverside county farm bureau, according to County Farm Advisor M. M. Winslow. There are 114 regular members and 52 associate members, and the center is still growing.

The present low price for plums in the east is caused by the shipment of plums running less than "five-five" pack in size. This is according to a communication made public by the California Fruit Distributors at New-castle from F. W. Heggeblade, their representative.

Those who have not taken any action to control vine leaf hopper are advised by Farm Adviser A. A. Jungerman of Stanislaus county to use sulphur-nicotine powder to combat the pest. He advises the user to be sure that the material is fresh or it will not be effective.

Nine more lots of tomatoes, fifty crates, were seized recently by E. E. Welty, Merced county horticultural commissioner, because of alleged violation of the state standardization act. Welty also received word from Sacramento that 160 boxes of Merced tomatoes had been seized there and barred from the market.

Selling on the Chicago market for \$2.95 per crate, the first carload of apricots shipped east from Meinert station in the Ygnacio valley set a new high mark for this season's apricots, according to a message received from the east. Another carload of apricots sold in the New York market on the same day for \$2.87 1/2 per crate.

A survey of the grape situation in Tulare county, recently made by J. A. Robbins, field representative at Visalia, for the Sun-Maid Raisin Growers, indicates, that the crop will be short in quantity, high in quality and the raisin tonnage will be equal to that of last year because fewer growers are planning to ship fresh this summer.

Reports made to the Fresno county chamber of commerce by six county horticultural commissioners of San Joaquin valley regarding fruit and cotton crops as of date of June 10 are strikingly uniform in regard to stone fruits, grapes and cotton. A normal yield of peaches, apricots and plums is reported with prices higher than the average for a number of years.

A resident of Atascadero says she has found a good method of fighting gophers in a lawn. When her patience was finally exhausted, she declares, she began pounding up glass and putting it into the open gopher holes. It would seem that the gophers do not like the treatment, for in each case where it had been tried, they are said to have left the lawn and retired to some other spot where they might be more easily trapped.

Walter Lee, Valley Ford, Sonoma county, has achieved marked success in agricultural work. The boy began his club work with a pure-bred heifer after borrowing money to pay for it. He now owns a herd of seven animals, three pure-breds, four grades and a pure-bred calf. Walter Macho, 15, graduate of the grammar school, Bodega, and a member of the Agricultural club, Tamale, has a pure-bred heifer which leads the entire herd on his father's dairy ranch in butter and fat production. The heifer was purchased by his father for \$150.

Golden State News of Interest to All

The city of Los Angeles was worth \$44,784,809.06 on July 1, according to a report submitted to the mayor.

Work on the seven-story Hart building in Marysville, which is to be Marysville's "skyscraper," has been started.

The cotton growers of the Corcoran section have perfected the organization of a unit of the California State Cotton Growers' Association.

The board of directors of the Merced County Fair at Merced, placed its stamp of approval on elaborate arrangements for entertainment at the exhibition to be held late in August.

June building permits in Long Beach show a marked improvement over the total for May, 1926 being \$502,750 compared to \$411,645, a gain of \$92,750 for the thirty-day period.

Staging a counter attack, friends of the junior high school at Modesto, presented a petition to the Modesto city board asking the board to continue the junior high school next year.

The Hearst Cannery at Oroville, formerly the Virden Packing company's plant, began operations recently. The plant will work entirely with peaches this year. Between 300 and 500 men and women will be employed.

Dr. J. P. Iverson, chief of the division of animal industry, California department of agriculture, was elected vice-president of the California Veterinary Medical association at the meeting of the association in Los Angeles.

With the awarding of contracts for construction of the one-story Riverside Grammar school, announcement was made by the school officials that work on the structure will be started immediately and rushed to completion.

With the completion of the new municipal storage reservoir, at Ontario, which it is hoped to have ready for use by the latter part of August the danger of a water shortage will be entirely eliminated for that section.

Fifty-eight students were disqualified for readmission to Stanford university because of scholarship deficiencies last quarter. Of these, 16 were first year students. Fifty-nine other freshmen were placed on probation.

The 1927 state legislature will be called upon by California farmers and shippers to pass a bill amending, codifying and improving the fruit and vegetable standardization act. It was announced by agricultural leaders in Sacramento.

The Ventura County Ice and Milk company, which has a creamery at Oxnard, has signed a contract with agents of the Federal government for supplying about two and a half tons of milk a day to the Soldiers' Home at Sawtelle.

Farm Adviser V. F. Blanchard of Ventura county announces the appointment of Sydney A. Anderson of Los Angeles as his assistant in extension service and farm bureau work. Mr. Anderson has for the past two years been secretary of the Los Angeles county farm bureau.

Speaking to the point of successful farm accounting, Farm Adviser C. M. Conner of Tulare county has just pointed out that the work of his unit at Visalia, has been most successful during the past year and added interest indicates that it may well be pressed again during the coming fiscal period, which will be done.

A flock of young ducks of pure wild Mallard strain, paddling around constantly in their domestic quarters on Dillon ranch, at Milo, Tulare county, adds another chapter, this season, to the unique and interesting history of the wild duck as he adapts himself to an environment foreign to his natural setting and instincts.

Sequoia National Park, first national playground to be created in California, is to be greatly enlarged and will be known as Roosevelt Sequoia National Park. Virtual assurance of the two changes was given when the United States senate, without opposition, passed a bill so providing, according to dispatches from Washington.

Taken by themselves, the 65,944 arrests for motor vehicle law violations in California during the last year constitute an alarming figure. But statistics on auto mileage, compiled by the State Motor Vehicle department for the same period, disclose that there were approximately 170,500 miles of motor travel in the state for every arrest.

Fertilizer shipments and orders have been heavier this summer in Tulare county than experienced in a number of years, it is reported by men interested in the trucking business or in the sale of commercial fertilizer material. The fertilizer is moving in great shipments and truck loads into the orange groves to the foothills on the eastern slopes of the Sierras where it will be spread about later in the fall after the hot weather has ended.

FROM PALETTE TO MORTAR BOARD

Young women artists turn from their jars of color and paint brushes to assist plasterers in setting ornaments in place atop huge pylons which adorn the main entrances to the Palace of Agriculture and Food Products, of the vast exhibition buildings which forms a part of the great Sesqui-Centennial International Exposition being staged in Philadelphia from June 1 to December 1 to celebrate the 150th anniversary of the signing of the Declaration of Independence. Climbing ladders and walking along rickety scaffolds is nothing new to these young ladies, but each time they do it they get a thrill.

In this day of modern motive methods, when the smell of gasoline pervades all California, it is unusual to see a giant combined harvester of the older type, using a 28-horse team as propelling power. The big harvester on the R. P. Stewart grain ranch at Beaumont, Riverside county, is thought to be the only one south of the Tehachapi still using horses for motive power. The only available driver in Beaumont is Tony Baca, 19-year-old boy who handles the twenty-eight horses with reins to the lead pair, from his high perch projecting well over the team from the harvester. The harvester uses a crew of five men, and cuts, threshes and sacks the grain at the rate of about sixty acres in a nine-hour day, resulting in close to 700 sacks of grain per day.

Wanted! Fifty first class eagles to donate feathers to clothe the Yosemite Indian tribe. The Yosemite redmen have worn out the feathered finery of their forefathers and are now looking for more eagles. They related their troubles to Chief Ranger F. S. Townsley, who is expected to bring home the "feathery bacon." Townsley thinks the task a difficult one, so he's asking for help. "Used to be eagles everywhere," said Chief Ungwah-too-tah, head of the tribe in addressing his appeal to Townsley. "Now, plenty white people," he continued, "no eagles, no real Indian clothes for redmen. Must have eagle feathers quick—get 'em ready for tribal dance last two days July."

An expenditure of \$3,000,000 must be made from the funds of the California treasury during the next two years as the state government's contribution toward the well being of dependent children. Outlining the little known work of the state and the county governments in caring for thousands of waifs made public charges by force of circumstances, Mrs. Amy Steinhart Braden, head of the state children's aid bureau and secretary of the state department of public welfare, set this sum as a positive requirement of the coming biennium in helping to maintain the orphans of California, the half-orphans, the abandoned children and the children of incapacitated parents.

Lantern in hand, Joe Rodriguez, White road rancher, near San Jose, undertook to fill the gas tank of his tractor from a 100-gallon drum. He ran for a sack to smother the blaze he saw envelop the lantern, and got away just in time to see the top of the gasoline drum rise a hundred feet in the air with a terrific explosion. A moment later a second drum of gasoline shot its bolt, and shortly afterward Rodriguez and his partner Cintras, were checking up losses of building, equipment and stock, which ran well over \$10,000.

An unusual apple pest has been reported on the J. R. Talbot ranch at Graton, Sonoma county. The apples on the trees appear to be bruised and on being cut open are found to contain dry rot near the surface. The apples have been sun scaled, due to some climatic condition, combined with probable damage from insects or cultivator to the roots of the apple tree, according to County Horticultural Commissioner O. R. Bremner.

Miss Brynteson to Wed

Friends in Campbell have received invitations to the wedding of Miss Ruth Brynteson and Capt. Sven Lundmark which will be solemnized July 24 in the Svanskogs church on the Brynteson estate of Svanholm near their summer home, Varmland. During her several visits here Miss Ruth made many friends who extend their best wishes for her happiness.

The State Board of Control accepted an offer to erect a building in Sacramento for the housing of the state division of motor vehicles, state highway department and other smaller departments. The building will be a 3-story fireproof structure with approximately 90,000 square feet of floor space to be leased to the state at 6-7-8 cents a square foot, this to include light, heat, water, janitor and elevator service. It will cost about \$250,000.

The filing of articles of incorporation with the secretary of state in Sacramento of The Baptist Church of Red Bluff under the faith of the Regular Baptist Church of America is taken in Red Bluff as an indication of a permanent schism in the ranks of the membership over the doctrines expounded by Rev. J. Brooks Frost.

A new community is developing about thirty miles west of Westmoreland on the Imperial Valley-Julian highway. Borego valley has been talked about for several years, but now at least a townsite has been surveyed and work on a hotel, store buildings, service station and dwellings is proceeding rapidly.

The appropriation bill signed by President Coolidge several days ago is expected to furnish a total of \$256,640, or an increase of \$3,926, for Yosemite National Park, according to word just received by Superintendent W. B. Lewis. The full appropriation will be available July 1.

Fifty-three years ago Bennett valley Grange at Santa Rosa, was organized and recently the anniversary was celebrated with the members of nine Granges present. The celebration was held in the grove near Santa Rosa where Grangers hall has stood for more than fifty years.

A memorial marker will be erected on the highway between Lone and Jackson, Amador county, to commemorate the spot where the last stage robbery was held on that route and the fatal shooting on that occasion of Michael Tovey, famous mail stage driver of those times.

The season's first concerted hegebra of tourists to Yosemite arrived in the park recently. Several thousands of persons, taking advantage of the double holiday, trekked by rail and motor on their way to the valley. Hotel reservations were entirely taken for several days.

CHAMBER OF COMMERCE IN BUSY SESSION

The monthly session of the Chamber of Commerce Monday evening was a busy one. The maintenance of a night patrol was a matter of much concern as not enough funds have been subscribed to meet the requirements. The committee in charge will make a further canvass in an attempt to secure sufficient pledges.

C. W. Shumway stated that the committee on radio program desired a later date for the broad casting of the community program.

Campbell had secured its quota of autos for the National Editors excursion yesterday.

Secretary Farley reported a surplus of \$25 from the subscriptions for the Campbell advertising leaflet. It was voted that this fund be applied toward the Editorial entertainment expense.

Choice peaches from the F. K. Bartholomew ranch were passed out to the visitors as they passed through Campbell. A. A. Purmort and Frank Rego were appointed a special committee to interview the supervisors concerning a sign at each end of Campbell Avenue routing traffic to and from the coast.

A special committee was appointed to confer with Senator Young concerning the enactment of a law permitting of more police protection. E. R. Kennedy, F. C. Farr and T. A. Cutting were appointed.

C. W. Shumway, E. G. Lanz, C. Berry, L. J. Smith and E. R. Kennedy were appointed an industrial committee to work for more industries for our community.

The secretary was instructed to write the supervisors thanking them for the good work done on the creek bank grading.

NEW CROSSING BEING LAID

Campbell Avenue railroad crossing is being laid this week by a Southern Pacific crew in charge of Foreman John Christensen.

The foundation is of heavy fir timbers 6x8 that have been treated in Creosote at the Oakland plant. This treatment insures against destruction by ants or other insects and greatly prolongs the life of the timbers against decay. The timbers are below the rails a trifle and a layer of asphalt and pea gravel will be applied to the level of the rails.

Mr. Christensen is doing a very good bit of work that will be greatly appreciated by all motorists and this crossing should last for years and the Southern Pacific company is to be complimented on its good work.

Editors Welcomed

The National Editorial excursion was met in Santa Cruz Sunday by a committee from the Santa Clara County Editorial Association to give them a welcome and extend the invitation to be with us on July 15. With the invitation one of the County booklets was given to each of the visitors who were accompanied into the valley Sunday evening by this committee, Miss Bernice Downing, President of the Association, Mrs. Ely of Palo Alto, Editor Copeland of Los Altos and Harry C. Smith of Campbell. Santa Clara County Consolidated had charge of the entertainment yesterday.

Mrs. Howard E. Lillingston and small daughter, Patsy Ann, arrived Wednesday evening from Marceline, Mo., to visit grandma, Mrs. Hattie A. Baugh. Elwood and Mrs. Baugh and Mrs. M. J. Bohnett drove up to Richmond Wednesday afternoon to meet them.

REGISTER NOW!

ERADICATE PUNCTURE VINE

The Lecturer's hour at the Grange Tuesday evening was opened by Miss Myrtle Arnott playing two musical selections on the piano. Joseph Brooks of San Jose entertained the grange for a time with a number of his inimitable stories and horticultural commissioner, L. R. Cody displayed samples of the puncture vine and gave an interesting talk on the subject. This pest is spreading very rapidly through the state from the fact that the sharp spiny burrs containing the seed stick to auto tires and are carried long distances some times. Several plants have already been found in this country. The plant grows rapidly even in dry soils and unless checked at the start will cover a large space in a very few weeks, ripe seeds being produced in six weeks from the time the plant starts to grow. Should this plant once get possession of a prune orchard it would be impossible to pick the prunes on account of the sharp stiff spines on the seeds. Mr. Cody urged everyone to be on close watch for this pest and exterminate every plant as soon as found. The plants should be burned using great care that the seeds do not escape the fire.

A. J. Peterson favored the grange with two songs, "Bony Mary of Argon" and "Sally in Our Alley" with Miss Arnott at the piano. The proposition of a new grange hall was discussed by the hall committee and others. The committee is making progress and hopes to have something definite to report before long.

KIWANIS REPORT

Lieut. Gov. Wendell Thomas of California-Nevada district made his formal report of the International Convention at Campbell Kiwanis luncheon Wednesday. Particular stress was made on the Education of new members. "Tac" Cutting vice president occupied the presidents chair in the absence of President Allison. "Ima" Abbott was chairman for the luncheon program.

Miss Ruth Matteson sang two solo numbers with Miss Patrice Hunter at the piano.

Directors and committee chairmen will meet in regular session Monday evening at the bank.

P. H. Dunlap promises an interesting program at the luncheon next week.

100 F OFFICERS INSTALLED

Last Thursday evening the new corps of officers of morning Light Lodge, I. O. O. F. were installed by Dist. Deputy grand master, Herbert Whiting and staff. Many visitors witnessed the ceremonies and enjoyed the banquet and social time which followed. The new officers are:

C. W. Shumway, P. G.; Ralph Halbrook, N. G.; Horace Lea, V. G.; William Coupland, R. S. N. G.; G. W. Clark, L. S. N. G.; S. Smith, R. S. V. G.; E. Thompson, L. S. V. G.; H. Bloom, warden; A. Covey, conductor; W. G. Smiley, chaplain; John Neff, O. G.; W. Silberbauer, I. G.; H. Gullick, R. S. S.; H. Steindorf, L. S. S.; Ralph Gardner, recording secretary; E. Ganasci, financial secretary; T. A. Robinson, treasurer; E. C. Merrill, A. E. Brydon, William Mason, trustees.

Albert-McGimsey

Marshall E. McGimsey of Campbell, son of Mrs. Louis Castro, was married to Lorine H. Albert of Booneville, Saturday in San Jose. The ceremony was performed by the Rev. Channing A. Richardson in the Methodist church of San Jose. Mr. and Mrs. McGimsey will live in Campbell for the present.

300 Dogs Entered At Kennel Show

With over 300 of the finest canines on the Pacific Coast entered, the success of the 1926 Kennel Show at Santa Cruz this week end is assured. The Show will open Saturday morning and continue all day Saturday and Sunday.

Every variety of dog will be represented at the Santa Cruz Show, with hundreds of trophies for the blue-ribbon winners.

Among the dog owners of note who will be represented by entries in the Santa Cruz Show are: Mrs. Nion Tucker of San Francisco, Harold Lloyd and Francis X. Bushman of Hollywood, Mrs. Elliott Dexter, H. H. Davis and Beverly Alexander of Santa Barbara, Mr. and Mrs. William Klassen of Burlingame, Mrs. Walter Colvert of Mill Valley, Mrs. S. A. Beck of San Francisco, Irving Ackerman of San Francisco and Tony von Priel.

Judges for the show will be as follows: W. T. Osborne of San Francisco—Boston Terriers; H. D. West of Reno—Shepherd dogs; W. H. Dennis of Oakland—Pointers, Setters and Sporting Spaniels; Robert Nolan of San Francisco—All Toys, Old English Sheepdogs, samoyedes and Belgian Sheepdogs; A. B. Kerbel of San Francisco—all other breeds.

Because of high prices obtained for Irish potatoes in the Van Nuys vicinity this spring, many tomato and bean growers have turned their fields into potato farms, and this summer a very considerable crop is expected. Within the next two or three months it is predicted that potatoes will be cheaper than they have been for several years.

Tulare County Jersey cattle breeders are planning to organize a Jersey association, the object being to promote this particular breed in the county. At the present time there are said to be twelve dairymen in Tulare county specializing in Jersey cattle. They are expected to form the nucleus of the contemplated association.

The first step in a far-reaching plan to convert into tillable land 18,000,000 acres in California, rather than the 4,000,000 acres it is possible to irrigate under the doctrine of riparian rights was taken recently when a proposed constitutional amendment was filed with Attorney-General U. S. Webb.

At a location recently acquired in Merced by J. C. Cocanour in the industrial site of the Southern Pacific company, concrete foundation piers are being put down for a tomato packing shed, which the building contractor, expects to erect in time to permit packing to begin by the 1st of June.

The State Fish and Game Commission formally assumed a five-year lease on thirty acres of Yountville State farm for its proposed experiment in raising quail, partridges and pheasants to restock California mountain districts. The lease was approved by the State Board of Control.

EVEN PRESIDENTS NEED VACATIONS

Congress has adjourned for the summer. The temperature rises in Washington. The White House door slams and a padlock put on the door of the garage. Some kind neighbor will look after the cat, or possibly it will be taken along. White Pine Camp, a beautiful spot in the cool Adirondacks, is the summer White House where President and Mrs. Coolidge are enjoying a season's respite from strenuous Washington.

The job of being President probably consists more of worry than of work. Every physical convenience is provided wherever he goes. Even his mental labors are augmented by a highly trained staff. It is the grave responsibility as chief executive of a great nation that bears heavily upon the shoulders of a President.

THE SWIMMING SWEDES

Sweden has launched a drive to compel every Swede to learn to swim. Good! When Sweden gets as overrun with automobiles as this country there will be no recourse for her pedestrians other than to plunge into the briny deep and swim to safety.

HAS A BOOTLEGGER A CONSCIENCE?

Now the Government plans to put gasoline into denatured alcohol to make it more difficult to secure a beverage. But why put in more poison? Will the bootleggers then take the trouble to extract the gasoline? The move would seem to imply that bootleg whisky is fit to drink but it isn't, as the death records prove. As long as alcohol is made somebody will be foolish enough to drink it, gasoline or no gasoline.

FAME IN NAME

Theodore Roosevelt, of political fame, and Francis X. Bushman, of motion picture fame, are examples among thousands of others of more or less distinction who gave their Christian names to their sons. If the father is one who achieves, such identity has much value to the son; but if the son writes too many checks promiscuously it is rather damaging to the father.

VACATION HAZARDS

Children are at play. Men and women are out of doors. Traffic is congested during summer months. Be careful! NOW THAT WE HAVE KEPT THE WORLD SAFE FOR DEMOCRACY, LET'S MAKE THE HIGHWAYS SAFE FOR HUMANITY.

Political bosses make a lot of noise, but they are on an even basis with other folks at the ballot box. When the politicians are unanimous in opposing a candidate, it is a good sign that the common people ought to support him.

El Segundo is in every respect a modern city, both commercially and as a beach residential community. The Standard Oil company refinery covering approximately 1,300 acres, employing from 1,500 to 2,000 men with its huge concrete tanks, shipping pier, and fine office headquarters situated in a beautifully parked area, represents modern commercial development of the highest rank, according to reports. The General Chemical company's plant, representing an investment of millions, swells El Segundo's monthly pay roll to a total of \$245,000. For any city of 2,700 population, east or west, these figures tell a story of commercial advantage requiring no further elaboration.

Stating that the dairy industry is basic to the prosperity of Kings county, and that any considerable consumption of butter substitutes would work its impairment, the Kings county farm bureau is mobilizing the industrial, business, banking, and farming interest in a concerted and county-wide campaign against the referendum movement, the purpose of which is to defeat the bill introduced by Assemblyman Frank Johnson of Hardwick, Kings county, to regulate the manufacture and sale of butter substitutes in this state.

Mother's day was fittingly observed in all California prisons. Through the prison department of the Salvation Army, inmates of the state's penal institutions were presented with specially designed badges bearing the inscription "Mother" outlined against a cluster of red and white carnations. In addition, Salvation Army mothers visited prisons to confer with prisoners and held special services at the San Francisco county jail, Alcatraz barracks, Mare Island naval prison, Folsom and San Quentin penitentiaries.

Auburn's (Placer county), hope for a federal building received a serious setback when it was announced in Auburn, recently, that the post office department had authorized the local postal officials to obtain a ten-year lease upon suitable property for a post office building. The late Congressman J. E. Raker had several times made an unsuccessful effort to have a federal building erected in Auburn at a cost of \$60,000, and at the time of his death a bill to that effect was pending in Congress.

Oscar L. Hemphill, deputy Tulare county horticultural commissioner in direct charge of the rodent control work, is authority for the statement that more squirrel eradication work is going on this season in the foothills and even the mountains of the county than ever before since the campaign started back in 1917.

How California farmers can make more money by converting their barley crop into pork instead of exporting it was explained by J. A. McNaughton, vice-president and general manager of the Los Angeles Union Stock Yards, in an address given at the University of California short course at Davis.

Kern county has added 671 acres of new fruit trees and grapes to its 1926 area, making a total acreage for trees and vines of 28,228, according to compilation completed by the county horticultural commissioner. Of the 28,228 acres, 5,619 have not come into bearing.

Marysville offices of the Western Pacific railroad are the special object of the crooks of this section. Within the past few months the depot agent has been held up, box cars have been robbed, property stolen from the right of way, while most recently the baggage room was burglarized. Bedding shoes and clothing were included in the loot.

Old prospectors in Placerville, Eldorado county, were attempting to retrace the meandering course of a horse with gold-flecked hoofs, hopeful that they will find an earth pocket lined with gold. The excitement was caused when the horse was taken to a blacksmith shop to be shod. The blacksmith lifted up one of the animal's hoofs to put on new shoes, when the glitter of gold caught his eye.

The San Jose offices of the P. G. & E. will organize a "Sign of Progress" club in the near future it was announced from the Marysville offices of the company recently. The Marysville office formed a luncheon club under this name early this year and it has been so successful that other offices now want clubs modeled after it. San Jose being the first to take definite steps in that direction.

You can drive an automobile to the filling station but you can't make it pay for the gas.

Mrs. C. E. DeSelle who was ill last week is much improved.

I. R. Abbott and family have returned from a vacation in the Sequoia forests in the Sierras.

Mr. and Mrs. D. H. Cramer and sons have gone to Big Creek, Fresno Co., for a two weeks outing.

Mrs. E. E. Lenphear and sons returned this week from Gilroy and will remain in Campbell for the summer months.

Miss Elberta Wilcox whose home is at Anderson is spending two weeks here with relatives, the R. W. Kennedy family.

J. A. Thom who had been at the Old Soldiers Home at Sawtelle for several months returned to Campbell last week for a visit.

Work at the canneries on Apricots was completed last week and after recesses of various lengths, all three are now engaged on peaches.

Mr. and Mrs. H. M. Shadle and sons are enjoying a two weeks outing in the northern part of the state having gone up the Redwood Highway.

Rev. Oakley of Palo Alto will preach Sunday morning in the Congregational church, his subject being, "How shall we get the most out of life."

Mrs. Violet Saunders Pomeroy and her former school mate, Miss Evelyn Spellman of San Francisco arrived in Honolulu this week for a short visit.

Mr. and Mrs. Ralston Alison and daughters left Saturday for a two weeks camping trip through the northern part of the state, going up the Redwood highway.

Wm. F. Mason has sold his home on Alice Avenue to Frank Rego, and this fall will go up near Mendocino, Mendocino Co., and engage in the dairy business.

Frances Hatton who has been visiting her cousins Mrs. L. S. Miller and Mrs. R. H. Hyde for the past week will return to her home at Dallas, Oregon, Saturday.

Geo. E. Hyde returned last week from an extended trip to the eastern markets. He reports business good and the outlook for a successful canning season very favorable.

Mr. and Mrs. E. C. Thomas of Hume, N. Y., and their daughter, Mrs. Miriam McCrary and son, of Los Angeles were guests of Wm. Skiff and Miss Miriam Skiff over the week-end.

Full Gospel Services every Wednesday at 8:00 p. m. Branch of upper room mission 4th and San Antonio Streets, San Jose. You are welcome. Come and bring your friends.

Miss Irene Sawyer, who has recently arrived from Honolulu, accompanied her sister, Mrs. Winona Fowler of Piedmont, for an over Sunday visit here with their mother, Mrs. Anna Sawyer.

Miss Anna Hagelin left last week with friends from San Francisco for an auto trip to Los Angeles. Miss Marie Carlson of San Francisco is staying with Mr. and Mrs. Hagelin during her absence.

Mr. and Mrs. J. W. Fay who came recently from Gulf Texas and have been visiting at the J. S. Fay home went to Petaluma Friday. Mr. Fay purchased five acres there some time ago and is establishing a well equipped chicken ranch.

Mr. and Mrs. Roy E. Bartholomew are the proud parents of a son born Saturday July 10. The young man tipped the scales at nine and a half pounds, and has been named George Keith. Roy is a son of Mr. and Mrs. F. K. Bartholomew of Hamilton Ave., and Mrs. Bartholomew was Miss Carol McChesney. The Press joins their many friends in extending congratulations to parents and grandparents.

Golden State

News of Interest to All

"The idea held by most people that the poison methods used by the federal and state departments of agriculture in the control of predatory animals is cleaning out the fur bearers is wrong," says R. K. Stewart, of the U. S. Biological Survey. "There is a greater mortality among fur bearers in trapping than in poisoning. When small fur bearers get in the coyote traps, they are injured so badly that it becomes necessary usually to kill them."

Los Angeles manufacturers during the first 6 months this year produced goods at an annual value rate of more than \$1,300,000. The six months' output of 1926 shows a \$25,000,000 gain compared to the same period in 1925 and the volume ranks the metropolitan district as seventh among the nation's largest industrial centers, according to figures made public by the Los Angeles chamber of commerce.

Restoration of the Forbestown hotel, built in the fifties and known as an old landmark in the Oroville district, has been completed. The old time barroom has been remodeled and converted into a ball room. The hotel was originally built by Mrs. Elizabeth Garton in 1859, and saw many mining day parties. Forbestown was once the site of the richest quartz gold mines in this territory.

Farm Adviser C. M. Conner of Tulare county says that the soil augur is becoming an indispensable tool on farms nowadays. With the coming of the dry season it should be used consistently to enable growers to know how much water to apply, he declares and he adds that a prospective land buyer also should use the augur to determine what is under the surface and to secure soil samples.

Among the water permits granted during last month by the state division of water rights were three to the Feather River Power company calling for an expenditure of \$7,700,000. This company is now doing construction work on a huge hydro-electric project in the watershed of the North Fork of the Feather river.

An interesting booklet for the farmer who is interested in the business side of his profession is Bulletin 403 of the University of California's college of agriculture, entitled Farm-Accounting associations. It is by Edwin C. Voorheis and deals at length with systems of farm accounting.

George Roberts, Placerville, a veteran of the Confederate army and a resident of Eldorado county for the past forty years, is dead at the age of eighty-one. Mrs. Roberts, who survives him also took an active part in the war between the states, carrying messages behind the lines.

Alfalfa aphids appeared in great numbers in Owens valley this season. In Antelope valley where aphids infested alfalfa fields, granular calcium cyanide was tried and proved a satisfactory control. J. A. McDonald at the Scott ranch in Chaffin and Charles Brown near Bishop, ordered some of the chemical and treated thirty-one acres of alfalfa which was badly infested. They used 125 pounds for the tract, at a cost of 18 cents a pound. Mr. McDonald says that in fifteen minutes after the application the aphids began dropping from the plants to the ground. Farm Adviser J. P. Hertel is working on the project of using calcium cyanide for the control of aphids, wire worms, squash bugs and other insect pests in Owens valley.

Albert Lundin, under whose direction 400 of the 1,100 acres of the Redlands Heights ranch have been planted to citrus trees during the past few years, has signed a contract with the Argentine Eastern railway under which he is to go to Argentina and remain for three years to direct the planting of thousands of acres of deciduous and citrus trees as a part of a great colonization scheme of the South American government.

True to Form

In view of the recent campaign in San Jose and vicinity for "Careful Crossing" of railroad tracks by automobiles, the little verse appended is quite apropos. It appeared in the July number of the Great Northern Semaphore, which had taken it from the Whiz Bang.

"There was a man in our town And he was a speedy guy. He turned the Corner on two wheels

Crossed crossings on the fly. But yesterday, the papers say, This wise guy saw the light; His flivver stalled on the railroad track; Toot, Toot! Ding Dong! Good Night!

Editor and Mrs. Fred Dunncliffe of Dickson spent Saturday night here with their friends, Mr. and Mrs. George Parso. They were on their way to Santa Cruz to join the National Editorial Association, which arrived there Sunday noon.

AID TO BEAUTY

Under this young woman's skillful hands the front of the Administration Building of the Sesqui-Centennial International Exposition Association takes on a delightful aspect. She directs gardeners where to place the small trees and shrubs about the great stucco building. She is doing her share to make the big celebration of the 150th anniversary of the signing of the Declaration of Independence a success.

It was doughnut-eating day in Stockton recently, with thousands of "bunkers" being delivered to citizens by Camp Fire girls. The Stockton Camp Fire organization began a campaign a short time ago to raise \$1,000 for the entertainment of delegates to the national Camp Fire executives' convention to be held in Stockton May 29 to June 3. It required over 200 Camp Fire Girls and Boy Scouts to deliver the palate ticklers.

Manager Arthur E. Lang of the Queen Colony Fruit Exchange, at Corona, Sonoma county, says that re-

PRONUNCIATION AID

June Webster, descendant of the famous lexicographer, Noah Webster, presents a copy of her ancestor's work to the Publicity Department of the Sesqui-Centennial International Exposition Association to help them in pronouncing properly the name of the big events which opens June 1 to celebrate the 150th anniversary of the signing of the Declaration of Independence. There are many types of pronunciations heard but there is just one proper way Noah says. It is "Ses-kuh-cent-en-nial" with the accent on the first syllable of the "Sesqui" and on the second syllable of the "centen-nial."

There were 512 cars of cherries shipped from California in 1925, compared with 710 in 1924 and 581 in 1923. The tonnage handled by the canners amounted to only 2,714 tons, which may be compared with 3,585 tons the previous year and 9,845 tons in 1923.

First estimates of the 1926 cotton acreage in California, announcement by E. E. Kaufman, federal-state agricultural statistician, show a decline of 5,000 acres in the crop. The total area is 167,000 acres, as compared to 172,000 acres harvested in 1925.

The people of California regulate public utilities through a State Commission.

Rates, service and finances come under the jurisdiction of this Commission. Its orders and decisions are based on the studies of experts—engineers, statisticians and economists.

Regulation coupled with the inventions, economies and foresight of the Power Companies insure fair rates and good service.

Rates in California are low.

Service is a model for the rest of the United States.

Since 1913 the average per capita cost of living increased 65%, while the average cost of electricity decreased 8%.

STRAIGHT TALKS WITH AUNT EMMY ON HOUSEHOLD BUDGETS

"Aunt Emmy," asked Helen, "won't you explain what is meant by a household budget? You said something the other day about budgets, but I don't seem clear in my mind about it."

"A budget is simply a plan," said Aunt Emmy. "You plan what you are going to do with your income. You divide your income systematically so that you can meet your needs. You lay aside a part of your income for rent, other parts for food, clothing, heat, light, telephone, recreation, savings and so on."

"How are you going to know how much you should spend for each thing—on rent for instance, Aunt?" asked Helen.

"Experts have studied the question carefully and have worked out budgets to suit every income. Of course, you can alter these typical budgets slightly to suit your particular needs. For example, the average budget that covers incomes of from \$2,000 to \$10,000 a year divides your income into six parts. Ten per cent for savings, twenty per cent for rent, twenty per cent for food, twenty per cent for what is called betterment and includes education, amusement, entertainment, books, music, sports; fifteen per cent for clothes and fifteen per cent for operating expenses."

"No matter how you change the other items you must not change the savings allowance—except to increase it. A great majority of men who reach sixty are dependent on relatives or charity. If they had saved only ten cents out of every dollar, they would not have been in that plight. There is nothing like money in the savings bank to help you through the emergencies that come in everybody's life. If everybody kept one year's income in the savings bank, much misery would be averted. If you always have enough money to see you through one year, you are pretty safe. Beyond that, it is wise to let your money accumulate until you have enough to buy some good securities. Your banker will advise you about the securities that suit your needs."

"But, Aunt Emmy, suppose you wanted to alter your budget?" inquired Helen. "How would you know how to do it? A young married couple might start on a certain budget and then, when they had children to feed and educate, they might want to change it."

"Well, my dear, if they were in doubt about their financial affairs, they could always consult their banker. That is why it is so good to establish friendly relations with a bank when you start out in life. Any banker will be glad to advise young people about making their money go farther."

—A. B. Aymes.

WHAT THE FEDERAL RESERVE HAS DONE FOR BUSINESS

What the Federal Reserve System has done for business is summed up in these points: (1) given business greater confidence in the ability of the banks to care for credit needs; (2) introduced an elastic currency and eliminated money panics; (3) eliminated extreme seasonal fluctuations in rates of interest; (4) brought business safely through the war and post-war crises; (5) saved millions of dollars to business through its efficient system for check collection; (6) made the gold reserve more effective as a basis for credit extension in times of extraordinary demand; (7) aided in the financing of foreign and domestic trade by developing a discount market for acceptances; (8) provided a means for handling huge financial operations of the government without interference with business; (9) aided in the re-establishment of the gold standard abroad; (10) given us an experienced banking organization which will assist us in meeting the future exigencies of business at home and abroad with courage and confidence.

BANKERS EDUCATIONAL FOUNDATION TRUSTEES

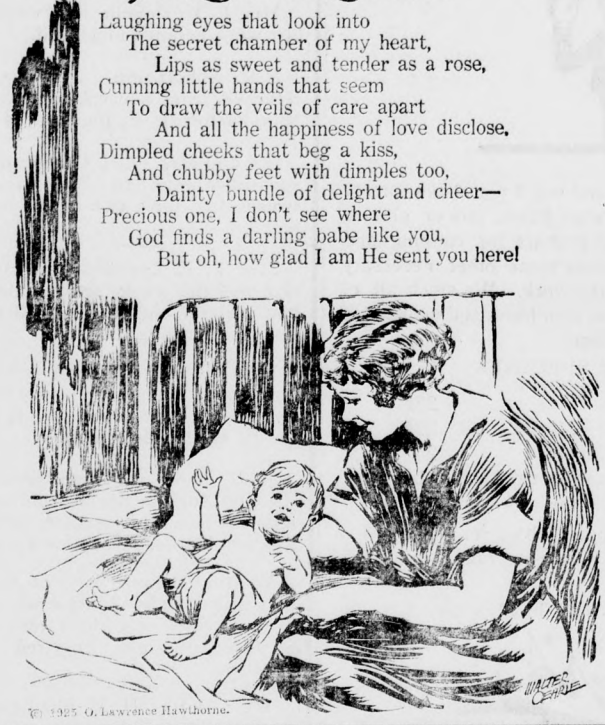

John H. Puelicher, former president of the American Bankers Association, has been named chairman of the board of trustees of the American Bankers Association Educational Foundation for which \$500,000 has been pledged by the bankers to provide for scholarships and research in economics in colleges throughout the country. The other trustees are Leonard P. Avers, Vice-President Cleveland Trust Company; Stephen I. Miller, Educational Director American Institute of Banking; Lewis E. Pierson, Chairman Irving Bank-Columbia Trust Company, New York; George E. Roberts, Vice-President National City Bank, New York; Francis H. Sisson, Vice-President Guaranty Trust Company, New York; Evans Woolen, President Fletcher Savings & Trust Company, Indianapolis; W. Espey Albright, Deputy Manager American Bankers Association, Secretary.

The banks of Washington, D. C., believe in giving the pupils of the public schools simple and practical information in regard to banking practices as a matter of education. Talks were made during the year to grade and high school students by representatives of the banks.

Cutters Cards at Press Office.

Precious Baby

by O. Lawrence Hawthorne

Laughing eyes that look into
The secret chamber of my heart,
Lips as sweet and tender as a rose,
Cunning little hands that seem
To draw the veils of care apart
And all the happiness of love disclose,
Dimpled cheeks that beg a kiss,
And chubby feet with dimples too,
Dainty bundle of delight and cheer—
Precious one, I don't see where
God finds a darling babe like you,
But oh, how glad I am He sent you here!

STARTLING STATISTICS OF ILLITERACY IN U. S.

According to statistics issued by the Parent-Teachers Association of Spokane, Wash., among the great nations of the world the United States stands tenth from the top in percentage of illiteracy. If lesser nations were considered it would make this nation rank even lower. All these statistics show that there are five million illiterates in the United States, according to the census, and that of these only 1,763,000 are foreign-born. There are more illiterates in the United States than all the people in eleven states; Delaware, Idaho, Montana, Utah, Nevada, Wyoming, Arizona, New Mexico, Oregon, North Dakota and South Dakota combined.

For several years Parent-Teachers Associations, Educational bodies, and many other organizations have been earnestly working for an Educational department with a seat in the Cabinet. In this connection the report from the National Education Association recently held in Philadelphia is of interest.

TEACHERS PLEDGE SUPPORT TO EDUCATION BILL

At the convention of the National Education Association held here recently one thousand school teachers voted almost unanimously to support the Reed-Curtis Education Bill providing for the creation of a Department of Education with a secretary in the President's Cabinet. In the whole assembly there was only one objector to the bill, Geo. Wanamaker from South Carolina, who later when the other South Carolina delegates voted in favor of the bill voted with them. Prof. George D. Strayer, of Teachers College, Columbia University, in speaking for the measure said the government was already engaged in many activities intended to improve and develop the American system of public schools. He urged the consolidation of these activities in a single department under the leadership of one who would sit at the cabinet table.

Among other measures discussed were:

Condemnation of competition as a force to drive pupils to study.

An appeal for the building of world peace through the new generation now in the schools.

Criticism of educators who advocate repeal of the prohibition amendment.

Objection to compulsory military training in high schools. Citizens' military camps, which are voluntary, were held to be not objectionable.

Increased effort in the campaign throughout the United States to bring about curriculum revision "because many of the accepted school and university subjects should be discarded."

Congressmen have to fight to get into Congress, and then fight like everything to get the thing adjourned in time to go back to fight to get into Congress again.

Bobbed hair will last another generation says a fashion expert. Deploable! There are already too many millionaire barbers in this country.

In the opinion of John Grunigen, well-known apple grower of Three Rivers section, Tulare county, very good results are being obtained this season in the codling moth battle now on at Three Rivers. Grunigen places the praise upon the county horticultural office, the state department of agriculture and the division of chemistry thereof which three departments worked collectively with the growers this year in a program which is now being very carefully followed. Tests of a new spray material, recently made and still being checked, developed the co-operative spirit which has since been shown and through which, in Grunigen's opinion, excellent final results will be obtained.

If the golden apples of the Hesperides were not apricots, the apricot is a golden apple for the orchardists of Kings county and of California. This state has developed this fruit, indigenous to Eastern Asia and introduced in the time of Alexander the Great to western Europe, to a stage of perfection never seen by its forebears until it has become a much prized delicacy exported to all parts of the earth. With a world market and a limited area suited to its best growth and delicacy of flavor, the apricot is a proven profitable crop in certain sections, and nowhere does it attain a higher degree of perfection than in Kings county.

One of the best developed early July stands of cotton ever seen in the state is located four and a half miles northwest of Tulare. The plot of 10 acres was planted here in March and early in April. At present it is about three months old and has produced once, the plants are from five to twenty-four inches high.

Some even have bolls setting on. The uniformity and growth of the crop probably has no superior in this part of the state. Cotton men freely predict that 200 bales of cotton will be produced from the 150 acres this fall.

Tulare county melon crop this year will bring the growers a very generous return upon their investment, it is predicted. The gathering of the crop is now well under way both in the southern part of the county and throughout the Exeter, Seville and Alta districts, where many acres of watermelons and cantaloupes are grown. In fact this year, it seems, the planting to melons has been somewhat more extended than ever before with a great many small patches set out for local consumption.
